

Position: Project Engineer

We are actively seeking Project Engineers to create accurate, detailed estimates and schedules for these projects.

Interested candidates should have a **demonstrated ability to develop estimates and schedules at schematic and final phases, and a minimum of 2 years related experience in large government, commercial or institutional projects (large office, airport, hotel, hospital, university, etc.)**

The candidate will support and augment the project team in the programming and management of numerous BRAC build out programs including the **development and execution of plans, schedules, and budgets** using standard cost and scheduling applications improved by the *MOCABuild*TM project controls system.

Qualities you will have if you are a great candidate

- Four-year college degree (B.S.) **Required**
- 1 year of cost estimating experience **preferred**
- Demonstrated MS word processing and **spreadsheet proficiency**
- Experience and interest in developing initial program budgets and schedules
- **Experience as a project manager or construction claims consultant** is a plus
- Government experience is a plus
- **CCE, CCC, PMP or PE certification is a plus**
- Experience with Timberline, PACES, RSMMeans, MCACES and Primavera

Are you able to perform the typical duties and responsibilities this job requires?

- Review all documents and site conditions to become familiar with the project
- Direct or implement collection of all project data for project files and cost engineering research
- Perform and document detailed takeoffs
- Creating detailed and accurate cost estimates and schedules
- Communicate with vendors, clients, engineers, and all team members
- Review all estimate data to provide continuity and direction for a project

Does this sound like you?

Our most valuable resource is our people: sharp, dynamic, energetic, inventive thinkers who care about doing great work. MOCA Systems strives to hire around the idea that work should be challenging and the challenge should be fun.

We go all-out to be innovative and unique in all services we provide both to customers and employees, including our benefits and perks offerings
