MOCA Hires Chiti Ho as VP of Technology

Newton, MA – It is with great pleasure that the firm has hired Chiti Ho as Vice President of Technology and opened a technology center in Houston, Texas. Chiti will lead the development of our project management information system called MOCAManage in support of multiple clients across the nation.

Chiti is a recognized technology innovator in the architect, engineering and construction industry with 25 years of experience. Prior to joining MOCA, Chiti was a Senior Vice President with 3D/I and Parsons, where he developed IMPACT (Integrated Management, Project Accounting & Controls Technology) and COMET (Condition Estimation Management Technology) software and several other in house applications focused on program lifecycle management. He is a certified Microsoft product specialist and studied civil engineering at Northwestern University where he obtained his master's degree and Tamkang University in Taiwan where he obtained his bachelor's degree.

"It is truly a pleasure having Chiti join our team. He is the leading expert in PMIS technology who will develop an innovative MOCAManage application to augment our MOCABuild construction simulation technology. Together, these applications offer a highly differentiated platform for program lifecycle management," says Kevin Bernier, MOCA's President & CEO.

Chiti can be reached at our Houston Technology Center:
