**MOCA Hires David Hart, FAIA as Western Regional Manager**

*Newton, MA* – It is with great pleasure that the firm has hired David Hart, FAIA as Vice President of Services for the Western Region and opened an office in Salt Lake City, Utah. David will lead our program lifecycle management services to clients throughout the western region.

David is a proven leader in the architecture, engineering and construction industry with 28 years of experience. Prior to joining MOCA, he was the Architect of the Utah State Capitol where he led the successful \$250 million restoration of the Utah State Capitol. This innovative reconstruction program was an engineering feat which combined a painstaking restoration of the building and grounds to their original 1914 design with a state-of-the-art upgrade of the capitol foundation to withstand severe seismic activity.

Prior to this, David established the architectural firm of Hart Fisher Smith Architects (HFSA) in Salt Lake City focused on public architecture and designed key buildings in and around Salt Lake City, Utah, including the Tooele City Hall, American Fork Library and Salt Lake Community College's Jordan Campus. Prior to this, David was an Associate Vice President and Division Manager at Daniel, Mann, Johnson and Mendenhall (DMJM) where he designed a variety of commercial and educational buildings across the U.S. and in Hawaii.

David is a Fellow of the American Institute of Architects (FAIA). He has a master's degree in architecture from the University of Utah Graduate School of Architecture.

"David is an innovative leader in program lifecycle management using Integrated Project Delivery (IPD) and technology. It is exciting to have David join our team and lead our many programs throughout the western region," says Kevin Bernier, MOCA's President & CEO.

David can be reached at our Salt Lake City office:

MOCA Systems
