

MOCA Awarded GSA Contract Under the American Reinvestment and Recovery Act (ARRA)

Newton, MA (September 1, 2010) – MOCA Systems, Inc. (MOCA) is pleased to announce the award of a contract for scheduling and outlay forecasting services by the General Services Administration (GSA) Denver Region 8 (Mountain Region) Design and Construction Division.

Through this contract, MOCA will provide support to the GSA Region 8 with scheduling analysis support, outlay forecasting and reporting services for their six ARRA design and construction projects in Colorado and Montana.

MOCA will serve as the prime contractor on this one-year contract with an additional option year period. MOCA currently holds an additional contract with the GSA's Chicago Region 5 (Great Lakes Region).

"Through the contracts in Chicago and now Denver, we are introducing GSA to our unique innovations and capabilities, not only in project controls and technology applications, but also in Construction Management, Leadership and Integration, to support the GSA's most critical current mission, the ARRA program," says Jerry Raeder, Vice President of MOCA and Project Executive on MOCA's GSA projects.
